Data backup S5-PLC on FTP-server via dig. IO

10101010

Via digital input triggered DB-backup/-restore without additional PC via PG-socket and Ethernet to FTP-server

Profinet WLAN panel connection

Simply connect your panel to your Profibus via WLAN.
Mobile workplaces are optimally connected.
You will be able to link additional applications such as PDs, visualizations or ERP systems at the same time.

Observe the collected energy-information (voltages, power, currents, phase-angles, ...) on the integrated web-server of _MONI_ "cable-less" with your mobile-phone or tablet. Change the parameterization of _MONI_, operate and control _MONI_ easily via the web interface.
 Of course you can also operate wired, where you put _MONI_ in your network. Parallel operation of LAN and Wifi is also possible.

Profinet-monitoring/-diagnosis inclusive alarm-messages

Detect intrusions and anomalies on your ProfiNet.
Early detection of malfunction and failures and malfunctions.
Easy installation, plug and play double socket.

You would like to give your customer the opportunity to read current numbers of the manufacturing Online, without installing a visualisation or even the STEP7-package? Then a S7-LAN with the option Status Variable" is needed, and your customer can take a look at these password protected data on a site of the integrated webserver.
