- + Wireless around the Moeller-PLC

QR-Code Website:

Please make sure to update your drivers before using our products.

Easiest configuration by included webserver

To configure ALF you dont need additional driver or special cables, you connect your PC via LAN or WLAN with ALF and over the integrated webserver you can configure the needed function.

Wireless around the ProfiNet-PLC

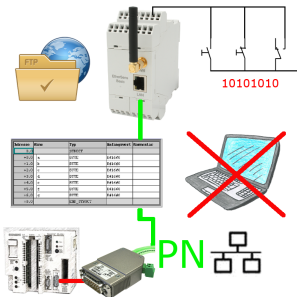

Move wirelessly around the ProfiNet-PLC and communicate for example ONLINE in the status

PLC-coupling (data exchange between PLC-devices)

Your pumping stations report the water levels of the central control via telephone network. The central office itself can of course transmit commands/messages to the substations as well. Thereto no dedicated line is required, a "normal" telephone connection is sufficient because the devices hangs up the line after occurred message.

Data backup S5-PLC on FTP-server via dig. IO

Via digital input triggered DB-backup/-restore without additional PC via PG-socket and Ethernet to FTP-server
